Validate Safenode has not appeared - Page 2

Troubleshooting A SafeNode

Error Loading pvals 149 - Due to power Failure or unexpected shut down

Step 1

```
~/safecoin/src/safecoin-cli stop
```

Step 2

```
cd ~/.safecoin
```

Step 3

```
rm safecoinstate
```

Step 4

```
~/safecoin/src/safecoind
```

Troubleshooting A SafeNode

Validate Safenode has not appeared after daemon is fully synced

Step 1 - Change to home folder.

```
cd ~
```

Step 2 - Stop safecoin daemon

```
~/safecoin/src/safecoin-cli stop
```

Step 3 - Open config file

```
nano ~/.safecoin/safecoin.conf
```

Step 4 - Change the blockheight to what it is currently, then save and exit config file

Step 5 - Start safecoin daemon

```
~/safecoin/src/safecoind
```

Step 6 - Wait 10 blocks & Validate Safenode will appear
