

Cross-Chain Linking Guide for Ravencoin

The cross-chain linking of blockchains rewards SafeNode holders. SafeNode holders can mine Ravencoin whilst getting rewarded with SafeCoins for doing so.

Guide For Ravencoin

Step 1 - Creating A SafeNode Paper Wallet

Please reference the guide located at : <https://safenodes.org/setup-safenode>

Create new wallet

This password acts as a seed to create your wallet.

Please do not lose your password, as we do not see or save it.

Wallet creation happens on your device and does not require an internet connection.

ENTER YOUR PASSWORD (A strong password is required)

CONFIRM YOUR PASSWORD

A strong password is required

NEXT

Remember to store the recovery phrase or password, Ideally in more than one place. Do not lose these otherwise your SafeCoins will be lost. It is not recommended to import your SafeNode private keys into a desktop wallet. After creating a paper wallet, you will need to fund the collateral address. To start receiving rewards, a minimum amount of 10,000 SafeCoin is needed.

Step 2 - Go To MinerMore

<https://minermore.com/>

Step 3 - Create An Account On MinerMore

Option 1 - Login name to be the Ravencoin address in the safenodes paper wallet.

Option 2 - Any login name but you must use the Ravencoin address as withdrawal address in account settings

Creating an account on MinerMore is not essential though. Must use the Safenode Raven Address

Step 4 - Set Up Your Mining Rig Configuration

Mine to your MinerMore account name

```
t-rex -a x16r -o stratum+tcp://us.rvn.minermore.com:4501 -u username.worker -p x
```

If you do not have a MinerMore account, mine to the Ravencoin address in paper wallet. Stratums & port in the link below.

<https://minermore.com/docs/help/ravencoin/>

Step 5 - Ravencoin rewards

Ravencoin rewards will be received into the MinerMore account or Ravencoin address in paper wallet.

Step 6 - Receive SafeCoin Rewards

A SafeCoin reward will be received when a block is found that has a Safecoin Transaction in it. These rewards will be credited to your SafeNode collateral address

The rewards in your address can be seen here <https://safenodes.org/nodes>
